

Testimonial for Dave Haynes@mindandbody

18th January 2012

I would like to say a big thank you to Dave Haynes who has treated my son Elliott.

Elliott had a problem with his back that we suspected was injured over the Christmas period. He was not able to participate in any physical activity.

Dave first saw Elliott last Wednesday, where he found the location of the problem and eased the surrounding muscles.

On Elliott's next visit on Friday when his back was quite painful, Dave managed to manipulate Elliott's body into a position where two bones that were stuck together popped and released themselves. Elliott was astounded that he was immediately able to tie his shoe laces.

I will definitely recommend Dave Haynes to other people and will certainly use him again.

Dave, thank you for providing amazing treatment with outstanding results.

Warren D'Souza
