### **Testimonial to David Haynes**

Last week David had performed a miracle!

My back has given up and I was unable to sleep, sit, walk, bend or do simple tasks which we normally execute without thinking about. On top of all this, I could not work and the constant pain was unbearable.

I was really thinking that I will be asking someone to tie my laces up for the rest of my life.

In desperation, I sent a text message to David (I did not want to interrupt his busy day) and he replied to me to come immediately. (A little marketing tip: 97% of people open their text messages instantly).

In our initial session with David, he had really tried hard, for an hour, to ease my muscles spasm and make me feel better. After lots of sweat and hard work, massaging and manipulating my back without success (it was totally my back's fault) he gave me good advice on how to slowly make it moving again and told me to come back in few days.

On my next session with David, he managed to find and fix all my muscles and bones around my spine. With every pull and click I felt better and at the end of the session not only I grew few inches taller but I swear that my vision also improved.

I found David to be extremely professional, helpful and most of all he has the magic touch to produce miracles.

Thank you David, for your professionalism, expertise and advice and I will not hesitate to recommend you to everyone.
