Hi Andy

Just wanted to thank you for referring me to David Haynes of Mind and Body Osteopathy.

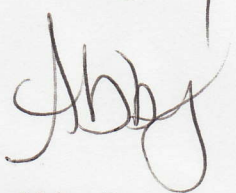

After a trip down the stairs (I blame the stilettos), I was left with torn ligaments in my right knee and a pain in my left shoulder.

You suggested David straight away, and having now seen David the pain has gone.

I was not only impressed by David's obvious medical experience but in how comfortable and relaxed he made me feel, a really personable guy.

I would really appreciate if you could pass on my thanks and my appreciation to David for all his help.

Kind regards

Abby Dennis
